6. Open **HOOP OPTIONS**.
7. Change hoop to **creative Supreme Hoop 360x260**.
8. Touch **HOOP OPTIONS** again to close window.
9. Touch **EDIT**.
10. Touch **Position** if not selected. 
11. Touch **Move to Center** to center design in the hoop. 
12. Deselect the design.
13. Open **APPLIQUÉ CREATOR**.
14. Touch **Load Shape**. 
15. Choose **BASIC, Circle**.
16. Touch **Load Shape**  to close.
17. Touch **EDIT**.
18. Select **Scale** or drag a corner to reduce size. 
19. Change size to **160.4 x 160.4**.

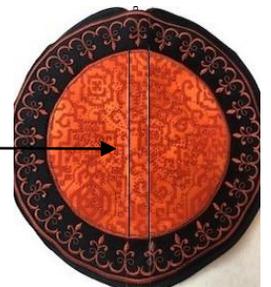

20. Select **Position**. 
21. Touch **Move to Center** to center appliqué circle.
22. Touch **OK** to close.
23. Deselect appliqué by touching somewhere else on the screen.
24. Open **APPLIQUÉ CREATOR**.
25. Choose **Load Shape**. 
26. Select **BASIC, Circle**.
27. Touch **Load Shape**  to close.
28. Touch **EDIT** to open.
29. Select **Scale** or drag a corner to increase size. 
30. Change size to **233 x 233**.
31. Center appliqué if necessary.
32. Touch **OK** to close.
33. Touch **Load Design**. 
34. Choose **MINI, Category 11, Design 114**. 
35. Touch **EDIT**.
36. Select **Scale**. 
37. Unlock **Padlock**.
38. Change size to **26.7 x 28.0**.
39. Lock **Padlock**.
40. Open **SHAPE CREATOR**.
41. Touch **Load Shape**. 
42. Choose **BASIC, Shape 1**, counter clockwise circle.
43. Touch **Load Shape**  to close.
44. Open **EDIT**.
45. Touch **+** to add designs to **25** or touch the number **1** and type in, adjust the number of repeats to your preference.
46. Touch **Scale**. 
47. Change size of circle to **195.7 x 195.7**.
48. Center design.
49. Touch **OK** to close.
50. Load Semi Circle outline design.

51. Center design in hoop.
52. Move to **EMBROIDERY STITCH-OUT**.
53. Select **Baste Around Design**.
54. Select **Color Block Sort** and **Color Block Merge**.
55. Touch **OK** to continue.
56. Put the 360x 260mm hoop with INSPIRA™ Whisper Web Mesh stabilizer onto the embroidery arm.
57. Center the Fabric A (12" x 15") piece on the hoop, with the right side up and the INSPIRA™ Fusible Fleece touching the INSPIRA™ Whisper Web Mesh stabilizer.
58. Stitch Color 1
59. Stitch Color 2.1
60. Lay the Fabric B (12" x 15") on the hoop, right side up to cover the entire basted area. Optional: Touch baste to hold the fabric in place.
61. Stitch Color 2.2.
62. Cut the fabric from the center of the hoop where the quilt design is.
63. Stitch Color 2.3, the satin stitch.
64. **Important:** Do not cut the black fabric away from the outside when the appliqué stitches 3.1, 3.2 and 3.3 are embroidering.
65. Stitch Color 4, the decorative embroidery.
66. Stitch Color 5.1.
67. With the zipper closed, mark a line across the zipper about 3" from the top of the zipper where the pull is on the wrong side.
68. Open the zipper.
69. Make sure the zipper pull is face down on the back end of the hoop, place the 3" mark on the zipper underneath the needle. The teeth should face down.
70. The edge of the zipper tape should be lined up with the previously stitched line and the teeth along the satin stitch. Use the blue tape to hold the zipper in place if needed.
71. Use your foot pedal to stitch the zipper in place. Look at the satin stitch where the zipper teeth are or where the tape line is lined up with the outside stitching to keep your stitching consistent.
72. When the left side is finished stitching, the needle will move to the bottom right.
73. Place the right side of the zipper in place, lining up the mark you made on the zipper with where the needle is, make sure the zipper teeth and pull are face down and the zipper has not been twisted.
74. Stitch the second side of the zipper in place.
75. Lay the pocket on top of the project vertically, centered on the embroidery. The seams are vertical and the raw edges are at the top and bottom of the hoop.
76. Tape in place if needed.

77. Lay the (12" x 15") Fabric B lining on top to cover the basted area. Make sure the fabric is taut so there is no extra fabric in the middle and tape in place.
78. Stitch the last color, making sure the zipper is not caught in the stitching.
79. Un-hoop the fabric.
80. **Very Important: Do not cut the Zipper ends.** Trim only the fabric around the outside edge to a ¼" seam allowance but do not cut either zipper ends.
81. Cut a 3" line vertically through the black lining fabric, this will be hidden later.
82. Pull the project right side out through the hole.
83. Pull the pocket to the inside if needed.
84. Pull the zipper ends into the inside of the project, so you can't see them. The zipper tab should be moved manually so it peeks out of the hole.
85. Fold the accessory bag in half, pull the zipper out more and zip the bag. If everything works the way it should, open the zipper and the accessory bag so it is almost flat.
86. Move the zipper teeth to the center.
87. Sew a rectangle box on the right side of the bag to tack the bottom of the pockets in place and hide the open hole in the lining. Make sure the zipper teeth and the zipper pull are not in the sewing area to avoid breaking a needle.
88. Sew a perpendicular line in the middle if you would like smaller pockets.
89. Tie the ribbon to zipper pull.

Congratulations, you are finished with you semi-circle accessory holder!
